

## 12V-24V Solar LED Bulb SYRIO POWER

The Syrio Power 12V-24V led bulbs are designed for photo-voltaic systems and wind and water powered systems. It can well match with the batteries and all 12V/24V setups. It has a very wide voltage range from 10V-30V. So it can work both at 12V and 24V.

Using SMD super Brightness LED, its efficiency can be almost 100Lm/W.

With leading edge heat-dissipation aluminum body design and drives technology, the bulb can be of first-class quality and meet your needs.

### Certifications

Model	BLS5-12-24	BLS7-12-24
Voltage (V)	12V-24V	
Power (W)	5W	7W
Base	E27	
Light Flux	450Lumen	630Lumen
Color Temperature (K)	6000-6500K	
Lifetime (Hours)	50.000H	
Lamp Size (mm)	60x112	

#### WARNING AND CAUTIONS:

- Suitable for use in open device (fixtures)
- Do not use in outdoor fixtures unless weather
- Protected fixture
- Never use ON 220VAC
- Non-dimmable

#### Features

- 10V-30V USE wide voltage range( the best operate voltage between 12V-24V);
- 50000 Hours lifetime;
- Last up to 25 times longer and uses up to 80% less energy than incandescent bulbs;
- Suitable for solar panels, wind and water powered systems;
- Suitable for batteries, boats and ships;
- Perfect design for heat-dissipation effect;
- Aluminum body for better heat dissipation;
- Unique design;
- 1000 Hours degradation 0%, after 2000hours, 1.5% degradation;
